

Rck Machine

Tempering

T **W** **D** **L**
TEMP WASH DECO LAMI

Description

Automatic machine for cleaning the rollers directly on the furnace, without the need of disassembling, characterised by the following strong points:

- Two phases of the cleaning action: abrasion and polishing
- Automatic control of the pressure on the roller, and zero risk of roller breakage
- Roller diameter not altered by the action of the cleaning machine
- Accurate cleaning and clean environment, thanks to an effective aspiration system
