

Vivida

Glass decoration and screen printing machinery

A AUTOMATION T TEMP D DECO L LAMI

Description

Vivida is a high-definition digital printer with ceramic ink, ideal for reproducing any kind of image on the surface of glass and can be used in all sectors, especially in furniture, architecture and automotive. Through the innovative software, graphic designs that will be printed on the glass can be processed easily and intuitively. The proprietary software and the industrial computer installed on the machine manage every operating parameter of the machine with a single user interface of simple and immediate management.
